

Journal of Sustainable Finance & Investment

The *Journal of Sustainable Finance & Investment* is the first journal to provide a dedicated international forum for the growing number of researchers, policy makers and practitioners working in sustainable finance, investments and governance. This inter-disciplinary, peer-reviewed journal focuses on environmental, social and governance principles as formulated in managed investment, banking, project finance, and philanthropy.

The journal develops the understanding of sustainable investment theory and practice by providing a venue for in-depth discussion and offering a range of accessible, impartial perspectives for both academics and professionals operating in the field.

Authors are invited to submit articles to regular issues of the Journal on topics including the following:

- *Responsible investment and market structure*
- *Governance of financial markets*
- *Investors and corporate social responsibility*
- *Carbon finance*
- *Emerging markets and micro-financing*
- *Shareholder responsibilities*
- *Investments law and regulatory frameworks promoting sustainable forms of financing*
- *Education initiatives*
- *Intergovernmental policy issues such as the debates about sustainable development in international development assistance*

Please submit your papers through our e-submission site:

The Journal of Sustainable Finance & Investment:

- Is the first dedicated outlet for responsible investment research
- Offers peer reviewed, in-depth explorations of responsible investment practice and theory
- Explores areas and issues including carbon finance, shareowner engagement, corporate social responsibility, and emerging markets and human rights.
