## Caitlin Fisher

Building small worlds:  
new stories for new screens

Tuesday, April 26, 4:00 pm  
Gordon Wood Lounge, 1811 Dunton Tower

**Caitlin Fisher holds a Canada Research Chair in Digital Culture at York University**, where she directs the Augmented Reality Lab in the Faculty of Fine Arts, an innovative interdisciplinary augmented reality lab with an international profile, drawing students from both Fine Arts and Computer Science and producing its own software and interface solutions as well as ground-breaking content. A co-founder of York's Future Cinema Lab, Dr. Fisher's research focuses on constructing and theorizing spatial narrative environments.
