Awards Policy

In recent years Carleton graduate students have won a large number of external scholarships, such as SSHRC fellowships, NSERC scholarships and Ontario Graduate Scholarships. In addition, the university itself provides generous support, and the majority of graduate students receive funds from this source.

Holders of awards must pay regular tuition fees unless otherwise stated.

Full-time graduate students at Carleton University are expected to comply with the following procedures:

- Any full-time graduate student who accepts an award that is not directly administered by Carleton University must immediately inform his departmental chair and the dean of the Faculty of Graduate Studies and Research in writing. This requirement applies to any awards or assistance offered by any agency or institution.
- Any full-time graduate student who accepts part-time employment outside the university is required to inform his departmental chair and the dean of the Faculty of Graduate Studies and Research, in writing, prior to undertaking the work.

Application Deadlines

March 1 is the last date for receipt of completed applications for admission (including transcripts, letters of reference, etc.) from candidates who wish to be considered for the initial award, announced April 1, of financial assistance administered by Carleton University.

Candidates whose applications are received after the March 1 deadlines may be eligible for the award of a scholarship and assistantship by reversion.

Method of Payment

All awards administered by Carleton University will be paid on a monthly basis, with the first installment on **September 30**.

Students are urged to note the above payment dates and be prepared to be financially self-sufficient during the month of September.

Other Awards

A number of national and provincial organizations award fellowships and scholarships which are tenable at Carleton University (for example, SSHRC, OGS, NSERC, etc.) Some application procedures and regulations concerning fellowships awarded by agencies other than Carleton University are given in the description of each of these awards.

In addition, a large number of foundations, companies, fraternal organizations, and other agencies offer fellowships and scholarships. A booklet providing details of deadlines and application procedures has been compiled and may be consulted in the office of the Faculty of Graduate Studies and Research.

Eligibility

In the case of fellowships, grants, scholarships, etc., for which students must make application, it is the individual student's responsibility to establish his/her eligibility. Should it become known that a student is unqualified for any reason, he/she must return the funds already received, with the university assuming no responsibility.

Departments recommending students for internal awards must accept full responsibility for the eligibility of their nominees.

Students are urged to consult carefully the brochures and announcements which specify the conditions associated with tenure of individual awards. This information is available in the office of the Faculty of Graduate Studies and Research and in departmental offices.

Awards Administered by Carleton University

The
awards

administered by Carleton University are derived from a variety of sources. Throughout the years, a number of individuals and organizations have contributed substantial funds to the university, through bequests and donations, in order to help support students in various fields of study.

It is not always possible to identify precisely the sources of various donations and bequests (often small, but most important in the aggregate) from which any graduate student's financial support has been constructed. These sums, together with the assistantship funds made available from the university budget, make up the reservoir from which the Carleton scholarships and assistantships are drawn.

In the following cases, however, either because of the relative importance of the contribution or because of the fact that it is earmarked for a specific type of student or program, we do identify the external source from which the award has originated.
