Studies in form, space, structure and order; geometric and symbolic orders in architecture.

The School

Director of the School:
Benjamin Gianni

The School of Architecture does not offer a program at the graduate level. However, it does offer graduate-level courses which can be used towards a degree program in the Faculty of Engineering, the School of Canadian Studies, and the Faculty of Social Sciences at Carleton. There is also an understanding with the Faculty of Environmental Studies at York University, the Centre for Building Studies at Concordia University, and the Faculté de l'Aménagement at the Université de Montréal, that a student registered in their program can apply for permission to do a certain part of the graduate work through course offerings made at the Carleton School of Architecture. Members of the School also supervise graduate research.

The interests and capabilities of the faculty members lie in the following areas:

History and Theory of Architecture

Scholarly studies in architectural thought from renaissance to modern movement, current debate and contemporary issues; Canadian architecture; Mayan architecture; Islamic architecture.

Architecture and Society

Ethnicity, multiculturalism and architectural expression; international development and indigenous architecture; heritage and preservation; evolution of the architecture profession.

Architecture and Technology

Building envelope and construction detail; design economics; structures; energy; lighting; acoustics; integration of systems.

Architecture and the City

Urban morphologies, architectural content of urban planning and design; social, cultural, economic and political matrix in the urban society and the contemporary architectural reality.

Computer-Aided Design and Management

Design and modelling, visual communication, computer graphics; computers and architectural practice.
